- **Pharma & Healthcare:** Pharmacy Operations, Inventory Management, GMP, Clinical Research Documentation
- **Professional:** Communication, Teamwork, Time Management, Adaptability, Working Under Pressure
- **Languages:** Bengali, English, Hindi

WORK EXPERIENCE

Marketing Intern | BlueStone Jewellery & Lifestyle Pvt. Ltd. | May 2026 – Jun 2026

- Enhanced the in-store shopping experience by assisting customers on the shop floor.
- Managed retail inventory and supported retail marketing events.

Pharmacy Trainee (Hospital Training) | Duta-Deepti Satsang Charitable Hospital, Deoghar, Jharkhand | Aug 2023 – Mar 2024

- Managed medicine inventory and supported daily pharmacy operations.
- Supported medical camps and patient healthcare services.

Industrial Trainee, Clinical Research | Sun Pharma Pvt. Ltd., Delhi | Feb 2023 – Mar 2023

- Supported the Clinical Research team with documentation and record-keeping.
- Trained in GMP practices and pharmaceutical quality standards.

PROJECTS

PharmaOS and Pharma OS: AI Platform for Pharmacies and Distributors | Personal project | 2026

- Building a platform that brings billing, inventory, deliveries, CRM, an AI assistant and reports together for pharmacies and distributors, demonstrated on a sample workspace.
- Structured the platform around isolated business workspaces, role-based access and row-level security.

Pharma CRM: Customer Intelligence for Retail Pharmacies | Concept project | 2026

- Analysed how Apollo, MedPlus and a local store manage customer relationships and identified the gap for independent pharmacies.
- Designed a CRM concept built on Customer 360, segmentation, churn prediction and retention strategy.

Diabetes Prediction Using Orange Data Mining | Data mining project

- Compared kNN, logistic regression, decision tree and random forest models on 768 patient records (public Pima Indians Diabetes dataset) using 5-fold cross-validation.
- Identified logistic regression as the best model (79.4% accuracy, AUC 0.83) and evaluated every model with confusion matrices.

The Lazy Baker Ad Campaign | IMC plan for a Bengaluru eggless cookie-dough brand | Nov 2026

- Developed an integrated marketing communication plan with an Instagram Feed and WhatsApp media plan, a ₹50,000 pilot budget and a target of 80 first-time orders in six weeks.
- Developed two Instagram Feed ad creatives ("After Dark" and "Rainy Days") built around an eggless, freezer-to-fresh, 15-minute proposition.

OmniPulse: Digital Marketing Performance Model | Excel | 2026

- Built a four-sheet Excel model tracking 12 months of campaign spend, funnel, CAC, ROAS and ROI across six marketing channels, with an executive dashboard.
- Modelled customer lifetime value for four segments, set the allowable CAC at a 3:1 ratio and applied VLOOKUP, HLOOKUP and INDEX/MATCH formulas.

Consumer Behaviour Study: Rural Shampoo Market (NOVA) | Team of five | Aug 2026

- Co-authored a 17-page market research report on how rural shoppers buy shampoo, based on observation of five kirana stores and interviews with their retailers.
- Mapped field evidence to consumer-behaviour concepts and delivered eleven recommendations for NOVA.

Delivery in Minutes: Blinkit Strategic Assessment | Group project | Oct 2026

- Analysed Blinkit's external environment using PESTEL and identified growth drivers, competitive landscape and entry barriers through secondary research.
- Built four scenarios from two drivers (customer demand and operating cost) and recommended a disciplined-growth strategy with a three-year roadmap.

Mamaearth Business Analysis: Data-Driven Decision Making | Excel | Mar 2026

- Analysed marketing spend against revenue with correlation and regression, and compared website, marketplace and B2B retail revenue with a one-way ANOVA.
- Evaluated price against customer satisfaction and forecast revenue in Excel with 95% confidence bounds, using an illustrative survey dataset.

BlueStone-Style Business Dashboard | Power BI | 2026

- Built a five-page Power BI report covering revenue, profit, product mix and customer segments, with year and zone filters, on an illustrative retail dataset.
- Segmented customers into Champions, repeat and one-time buyers and added a profit simulator for discount, marketing, price and volume scenarios.

Pricing Strategy Simulation: Universal Rental Car | Classroom simulation

- Set monthly prices for a rental-car region over 12 months, using demand, competitor price, capacity and breakeven analysis.
- Achieved $25.0M cumulative profit and a 43.3% final market share.

State-Wise Sales Analysis and Visualisation | Tableau | Nov 2025

- Built a Tableau dashboard presenting state-wise sales trends for business intelligence.

EDUCATION

- **PGDM (Marketing)** | ISME, Bengaluru | 2025 – 2027 (pursuing)
- **B.Pharm** | Bharat Technology | 2019 – 2023 | CGPA 8.40
- **Higher Secondary** | Ghoshpur High School | 2017 – 2019 | 69%
- **Secondary Education** | Kumarpur Hateswar High School | 2017 | 81%

CERTIFICATIONS

- **Marketing Psychology: Understanding Customers** | Infosys Springboard | Aug – Dec 2025 | Analysed how the Pavlov, Halo and Scarcity effects influence buying decisions
- **Data Analysis Using Excel** | Infosys Springboard | Aug – Dec 2025 | Extracted managerial insights from complex datasets and analysed marketing spend against revenue to determine ROI
- **Online Brand Management** | Infosys Springboard | Aug – Dec 2025 | Developed profit-maximisation strategies, including market skimming and product-line placement
- **The Essence of Leadership** | IIM Bangalore (IIMBx) | Oct 2026
- **Digital Marketing** | In progress
